- 12. Sanitizing/Disinfection/Procedures**
- 13. Floor Plan Workstations, Requirements**
- 14. Fixed Equipment Specification List**
- 15. Cleaning Equipment Storage/Mop Sink**
- 16. Waiting Area**
- 17. Employee Area**
- 18. Foods and Beverages**
- 19. Employee Area Establishments in Residences**

1. **Water Supply**

There must be an adequate supply of pressurized potable water to the establishment. There also needs to be sufficient hot water generating capacity to properly disinfect, handwash and maintain sanitary practices.

Adequate source of Hot/Cold water under pressure? Y___ N___
Properly Sized Hot Water Heater? Y___ N___
Public Water Supply___ Well___

If the establishment is served by a well, then documentation that the well is registered as a Transient Non-Community Water Supply must be submitted with the plan review. If not registered, please request a registration form from the health district. **A copy of the most recent well water test report must be submitted with the plan review.**

2. **Sewage Disposal**

Municipal___ Septic System___ Tank Size_____ Leaching area (ft²)_____

If the establishment is served by an on-site sewage disposal system, you will need to submit a copy of the as-built drawing of the system and/or a permit to discharge. We will also require a copy of the latest septic tank pump out (pump out date must not be more than 12 months old)

Please list the current use of the salon space _____

If your proposal for a cosmetology establishment constitutes a change of use per Section 19-13-B100(a) of the CT Public Health Code, then a review of the discharge capacity of the existing sewage disposal system will be required by the ESDHD. Please consult with the ESDHD on whether your proposal constitutes a change of use.

We require that, to the best of your ability, your establishment discharge liquid wastes in accordance with the most up to date recommendations of best practices as outlined in the document: **Best Management Practices for the Protection of Ground Water, printed by the Connecticut Dept. of Environmental Protection. (Copies available at ESDHD office)**

3. **Sinks**

All sinks must be of sound construction and the surfaces must be non-porous and easily cleanable. **Each type of fixture below must be a dedicated sink for that purpose only.**

Sinks nonporous and easily cleanable? Y___ N___

a. *Utility/All Purpose* – Convenient & Accessible for proper cleaning of surfaces & equipment, dedicated use.

Sink Provided Y___ N___

b. *Mop Sink* – Proper mop water disposal area. Mops must be hung to dry, dedicated use.

Sink Provided Y___ N___

c. *Hair Washing Sinks* – All wands and extensions must have backsiphon prevention devices, dedicated use.

Number of Sinks___ Backsiphon Prevention Devices? Y___ N___

d. *Pedicure Stations* – Must have backsiphon prevention device, dedicated use.

Number of Stations___ Backflow Prevention Device? Y___ N___

4. **Handwashing & Toilet Facilities**

At least one handwash sink must be convenient & accessible to each private room & work area. If you are unsure about this requirement, ask your ESDHD inspector.

Number of workstations Number of handwash sinks

Each handwash sink equipped with pump soap and single use hand towels? Y___ N___

Toilet Facilities must be in compliance with all applicable State & Local Codes & Regulations. Please consult with your local building official.

Number of Bathrooms
 Adequate Pump Soap, Paper Towels & Covered Receptacle per bathroom?

Doors Self-Closing? Y___ N___ Adequate exhaust ventilation? Y___ N___

5. **Garbage Disposal**

Tightly covered containers must be supplied for workstations, toilet rooms, and exterior storage areas.

Solid waste disposal:

Dumpster Garbage cans pick up frequency/week

6. **Floors, Walls, Ceilings**

All walls and floors must be durable, impervious and easily cleanable and preferably of light color. No carpeting is allowed in work/treatment areas. Carpeting used in non-workspace areas must be of commercial grade.

Floor Material: _____ Bathroom _____ Utility/Storage Areas
_____ Work Areas _____ Waiting Areas

Wall Materials: _____ Bathroom _____ Utility/Storage Areas
_____ Work Areas _____ Waiting Areas

Ceiling Material: _____

7. **Lighting**

Adequate Lighting provided in all work areas? Y___ N___

8. **Ventilation**

Ventilation must be capable of effectively removing excess heat, vapors & odors. External discharge of vented air must not create a nuisance condition to anyone outside of the premises. Vapor Barrier must be installed to a height of the full partition in establishments that share walls with an adjacent use. The local building official must approve the adequacy of exhaust ventilation.

Adequate Ventilation? Y___ N___

9. **Storage/Laundry Facilities**

All laundered items must be properly disinfected. Clothes dryers must be adequately exhaust vented to the exterior, and in compliance with building and fire codes.

On-site laundry Off-site laundry service

Type of Disinfection: _____ Colors _____ Whites

Clothes dryer on premises properly exhaust vented? Y____ N____

Linen Storage

Covered bin for soiled linens Cabinet for clean linens

Proper storage for: Cleaning Supplies Chemical/Sanitizer Storage

Service Item/Equipment First Aid Kit Provided

10. **Utensils/Equipment Handling**

All equipment and general areas must be cleaned on a regular basis, and be free of visible dirt, hair, clippings etc. This includes all floors, counters, drawers, bathroom fixtures, sinks, cabinets, tables, chairs, containers, etc. A written cleaning schedule should be strictly adhered to and enforced by the management. The cleaning schedule should be made available to the cosmetology inspector upon request. Multi-use utensils, once disinfected between uses, should be properly stored to prevent contamination during storage.

11. **Personnel, Licensed Professionals**

Professional licensing: All individuals performing barbering, hairdressing or cosmetology services must be in possession of a valid license from the State of Connecticut. The State of Connecticut passed public act 04-221 in 2004, which suspends the requirement for technicians performing pedicures to be a licensed individual, however that individual must be working under the supervision of a licensed professional. Permanent make-up constitutes a form of body tattoo. In order to perform this service, technicians must meet specific physician oversight requirements outlined in Connecticut General Statute section 19a-92a-1.

In addition to performing facials, eyebrow arching, manicuring fingernails and braiding hair, unlicensed persons may, for cosmetic purposes only, trim, file, and paint healthy toenails, **excluding** cutting nailbeds, corns and calluses or other medical treatment involving the foot or ankle.

Number of licensed Hairdressers, Barbers, or cosmeticians employed _____

(Provide the ESDHD with photocopies of valid and current CT licenses)

Establishment permit: A valid permit to operate, issued by the ESDHD, per local ordinance, must be prominently displayed within the establishment.

Independent operators who are not employees of a salon or shop must individually obtain a permit from the health district. Permits are not transferable from person to person or from location to location. For more information, contact your cosmetology inspector at the health district.

12. Sanitizing/Disinfection/Procedures

Specify products and procedures for sanitizing or disinfecting the following equipment:

Hairdressing
Combs and Brushes _____
Scissors _____
Clippers _____

Manicure
Nippers/Metal Implements _____
Files/Buffering Blocks _____
